

## About Noida International Airport

Noida International Airport (NIA) is the upcoming greenfield airport at Jewar, which will enhance connectivity to and from Delhi NCR, Noida, and Western UP. The foundation stone for the grand inauguration of NIA was laid on November 25, 2021, by Prime Minister Narendra Modi and the first phase of the airport will be completed by the end of 2024, with one terminal and one runway. NIA, a confluence of Swiss efficiency and Indian hospitality, is envisioned to become India's leading airport in terms of customer service, outstanding efficiency, digital services, and commitment to minimal environmental impact.

## Construction Update

Excavation works at the Project site have begun after onboarding Tata Projects as the EPC contractor.

## News Updates

### NIA selects Tata Projects Ltd as Engineering, Procurement, and Construction (EPC) Contractor

Yamuna International Airport Private Limited (YIAPL) selected Tata Projects Ltd. to undertake the engineering, procurement, and construction (EPC) of Noida International Airport. The company has been selected from three shortlisted teams with demonstrated experience in the design, procurement, and construction of large infrastructure projects. Tata Projects will construct the terminal, runway, airside infrastructure, roads, utilities, landside facilities, and other ancillary buildings at Noida International Airport. NIA will combine Indian culture and hospitality with Swiss technology and efficiency to develop a modern, user-friendly design, inspired by India. [Read more](#)

### NIA selects ICAD as MSI consultant to build a digital airport

Yamuna International Airport Private Limited (YIAPL) selected ICAD Holding Ltd. as Master System Integrator consultant for Noida International Airport. ICAD will support NIA with the systems integration design, integration program management, and integration of ICT and Airport Systems. ICAD will also lead the core airport systems implementation and integration. NIA will set a new benchmark as a digital airport, with the implementation of state-of-the-art technology to provide a seamless and mostly contactless flow through the airport. [Read More](#)

### Excavation works begin at the airport site

### NIA welcomes Shri Yogi Adityanath to inspect the development at the Project Site

## Looking ahead

Construction of the runway, terminal, and ATC tower has begun and will continue in full swing

## Factsheet
